Product number: 17473

SenseTap Sticker Waterproof | 40 mm diameter | 15 pieces

Product information

Waterproof, dishwasher-safe NFC sticker with extra-strong adhesive power, also suitable for metallic surfaces.

Short Description

- Material: PET with extra-strong 3M 300LSE adhesive layer
- Suitable surfaces: Plastic, glass, metal, ceramics
- Properties: Waterproof, dishwasher-safe, freezer-safe
- Suitable for metallic and conductive surfaces
- Usage location: Indoor and outdoor

Product Description

The blue SenseTap sticker enables people with visual impairments to identify everyday objects. A simple scan of the NFC-based SenseTap tag with a smartphone is all it takes for the saved information to be read aloud automatically.

A special feature of the sticker is its haptically tactile SenseTap logo. The high-quality partial spot-varnish finish stands out tangibly from the surface, allowing the sticker to be easily located on objects by touch.

Thanks to the strong 3M adhesive layer, this sticker withstands heavy use such as heat, water, and cold. In addition, an integrated ferrite layer ensures that the sticker functions reliably on metal containers. It is ideal for food storage containers, lunch boxes, or storage jars. For example, you can meal-prep, freeze the dish in the container, and label the contents using the SenseTap app. After eating, the container with the sticker simply goes into the dishwasher so the tag can then be rewritten for the next meal.

Usage Note: The sticker can only be used with the SenseTap app (available for iOS and Android).

Product properties

Product number	17473
Weight	1,9 g
Dimensions	40 mm Ø
Adhesive layer	Yes (3M)
Frequency	13.56 MHz
Chip	NXP NTAG213
Data transfer rates	106 kbit/s
Type	Sticker
Chip standards / ISO Norm	ISO 14 443-3 A , ISO 14 443-2 A
On-metal	on metal
Detail colour	blue
Data retention	10 years
Compatibility	to NFC-enabled smartphones: 100%
Material thickness	1,2 mm (T)
Water resistance	waterproof
Colour category	blue
NFC Forum Type	NFC Forum type 2
