

Product number: 17080R2

NFC card PVC printed on both sides - 85,6 x 54 mm - MIFARE DESFire EV2 8k - 8192 Byte - white glossy | printed on both sides

Product information

With 8192 bytes, the white PVC NFC card is the product with the highest storage capacity in our range. Its integrated MIFARE DESFire EV2 chipset is very well suited for areas with high security requirements and is therefore often used in industrial areas for access control and locking systems or for payment systems and intelligent systems in public transportation.

Short description

- PVC material, rigid
- Format 85,6 x 54 mm
- Indoor and outdoor use
- Ambient temperature -25 to +70 degrees
- NXP MIFARE DESFire EV2 8k - 8192 bytes
- Printed on both sides
- 4-color printable
- Print finish: glossy

Product description

NFC product

The white NFC card is made of PVC and has a format of 85.6 x 54 mm with a material thickness of 0.86 mm. It has a glossy, smooth surface and fits easily into standard wallet compartments for cards thanks to its typical credit card format. The PVC material of the card is waterproof and is therefore ideal for both indoor and outdoor use.

Print

Our products are printed using a process that offers high resolution, colour accuracy and durability. This enables images to be displayed in photorealistic quality or fonts to be printed legibly. This technology enables us to personalise your products on one or both sides and add logos, images, text or other

designs from a wide range of colours.

For your desired design, simply download our suitable [print template](#) and provide us with your desired print layout conveniently via our configurator.

NFC chip

The white PVC NFC card is equipped with the original MIFARE DESFire EV2 8k (MF3D82). The chip offers full backward compatibility with the MIFARE DESFire EV1. The MIFARE DESFire series is intended for the realization of applications with high security requirements and offers corresponding security functions that enable the protected storage of data on the chip. The MIFARE DESFire EV2 series (MF3Dx2) increases the security level through new functions (Key Set Rolling), removes the limit for applications and offers a higher write speed and improved range compared to its predecessor.

The MIFARE DESFire EV2 8k has a total capacity of 8192 bytes and has a 7-byte UID. The NFC chip can be written up to 500,000 times and has a data retention period of 25 years. The chip is certified according to Common Criteria (EAL5+) and offers 3-DES or AES128-compliant encryption, among other things. The MIFARE DESFire EV2 8k is compatible with all NFC-enabled end devices. Due to the special functions, special hardware (locking system) or software (app) is usually required for use. Please contact us to clarify compatibility with your application.

- Total capacity: 8192 bytes
- Free memory: -
- Usable memory NDEF: -

Product properties

| | |
|-----------------------------------|--|
| Product number | 17080R2 |
| Weight | 6,1 g |
| Dimensions | 85 x 54 mm (W x H) |
| Memory | 8192 Byte |
| Frequency | 13.56 MHz |
| Chip standards / ISO Norm | ISO/IEC 7816-4, ISO/IEC 14443A |
| Ambient temperature | -25 to 70 degrees |
| Data transfer rates | 212 kbit/s, 106 kbit/s, 848 kbit/s, 424 kbit/s |
| Material | PVC |
| Storage temperature | Min -55°C - Max +125°C |
| Operating temperature | Min -25°C - Max +70°C |
| Colour category | white |
| Detail colour | white glossy |
| Product form | rectangular |
| Functions | 7 Byte UID |
| Material thickness | 0,86 mm (T) |
| Data retention | 25 years |
| Compatibility | to NFC-enabled smartphones: 100% |
| Chip | MIFARE DESFire EV2 |
| Antenna | Aluminium |
| Number of write operations | 500.000 times |
| Type | Card |

| | |
|-------------------------|-------------------|
| Adhesive layer | No |
| NFC Forum Type | NFC Forum type 4 |
| Water resistance | waterproof (IP67) |
