- Made of PVC, finished with an epoxy coating and metal frame
- Robust and waterproof
- Comprehensive information about the dog and its owner, e.g., contact details, profile of the dog
- Can be read via NFC or QR code with any smartphone, without a special reader
- Includes metal ring for attachment

Product description

NFC product

With the Dogtap digital dog tag, you can offer your four-legged friend additional security so that they can receive the best possible care in an emergency and be reunited with you as quickly as possible. With just one scan using your smartphone, Dogtap provides comprehensive information about you and your dog in a clear dog profile. This means that, as the owner, you can be quickly and easily identified and contacted at any time in an emergency.

The Dogtap Solid is the elegant classic from the Dogtap range. A stylish PVC tag, coated with an additional layer of epoxy and reinforced with a durable metal frame, the Dogtap Solid impresses with its durability and robustness. Thanks to its compact dimensions (41.6 x 28.5 x 4.6 mm) and the metal ring supplied, the Dogtap Solid can be easily attached to the collar in the same way as conventional dog tags.

NFC chip

The Dogtap contains two NTAG213 chipsets from leading chip manufacturer NXP. All the necessary information about your dog can be easily stored on the chips via our tap21 web portal. You can update the information at any time if necessary. The NFC chips are invisibly integrated into the product and protected from external influences. Thanks to the materials used, the Dogtap Solid is a very sturdy dog tag that is impervious to water and dirt. The NFC chip can be read by any NFC-enabled smartphone; smartphones that are not NFC-enabled can use the printed QR code.

Further information and comprehensive instructions on Dogtap can be found on the Dogtap webseite.

Product properties

Product number	17362
Memory	180 Byte (free: 144 Byte, NDEF: 137 Byte)
Product form	Bone
Frequency	13.56 MHz
Dimensions	41,6 x 28,5 x 4,6 mm (W x H x D)
Chip	NXP NTAG213
Material	Metal, PVC
Data transfer rates	106 kbit/s
Storage temperature	Min -55°C - Max +125°C
Chip standards / ISO Norm	ISO 14 443-3 A, ISO 14 443-2 A
Operating temperature	Min -25°C - Max +70°C
Data retention	10 years
Type	Dog tag
Compatibility	to NFC-enabled smartphones: 100%
NFC Forum Type	NFC Forum type 2
Water resistance	waterproof (IP67)
