Product number: 17376

Bagtap Kids - Digital Luggage Tag - Acrylic - 55 x 80 mm - Dino | Dino

Produktbild Cover

Product information

Whether it's a school bag, gym bag, suitcase, backpack, or sports bag, Bagtap Kids ensures that your child's most important belongings can always be easily identified. Thanks to child-friendly designs, the tag is not only a practical helper, but also a real eye-catcher that children love to carry with them. Our innovative tag is equipped with intelligent additional functions. Unlike conventional name tags, the data is not printed visibly, but stored digitally. This means that personal information remains protected and cannot fade or become illegible. Parents can conveniently enter and update the data online via our secure Tap21 platform. The stored information can be easily retrieved via NFC scan or QR code if necessary. With just one more click, the family can be notified so that lost items can quickly find their way back. Bagtap Kids combines safety and data protection with a cheerful design and is the ideal companion for school, leisure, and on the go.

Short description

- Material: Acrylic, soft PVC
- Format: 55 x 80 mm
- Secures suitcases and school bags reliably
- Unlimited information can be stored on your online profile and updated anytime, anywhere
- Data can be shown or hidden at any time
- Can be read with any smartphone via NFC or QR code
- Includes key ring for attachment

Product description

Bagtap

Compared to conventional name tags or address tags, Bagtap Kids offers particularly high data availability and security. Parents store the most important information in a personalized online profile and decide for themselves which data is visible if necessary. If something gets lost, it is precisely this information that is crucial for school bags, gym bags, or suitcases to be quickly identified and returned. From basic contact details for parents to additional information, such as for excursions or trips, all relevant information can be stored easily and conveniently.

The 55 x 80 mm Bagtap is made of acrylic, making it robust and waterproof. The tag, which matches the design, is made of soft PVC. It can be easily attached to any piece of luggage using the metal ring supplied.

NFC technology

The NFC chip integrated into the Bagtap enables data to be exchanged over very short distances. The data can be read using any NFC-enabled smartphone. For smartphones that are not NFC-enabled, the Bagtap also has a QR code.

To store or update data, parents simply scan the Bagtap briefly with their smartphone and log into our Tap21 web portal. Further information, detailed Bagtap instructions, and FAQs can be found on the

Bagtap webseite.

Product properties

Product number	17376
Material	Acrylic
Storage temperature	Min -50°C - Max +125°C
Material thickness	3,8 mm (T)
Dimensions	55 x 80 mm (B x H)
Memory	180 Byte (free: 144 Byte, NDEF: 137 Byte)
Frequency	13.56 MHz
Chip	NXP NTAG213
Data transfer rates	106 kbit/s
Detail colour	purple
Chip standards / ISO Norm	ISO 14 443-3 A , ISO 14 443-2 A
Colour category	violet
Operating temperature	Min -25°C - Max +70°C
Data retention	10 years
Number of write operations	100.000 times
Weight	24 g
Product form	rectangular
Compatibility	to NFC-enabled smartphones: 100%
Type	Luggage tag
Water resistance	waterproof
NFC Forum Type	NFC Forum type 2
