Datasheet for NFC tag ABS - 40 x 32 mm - MIFARE DESFire EV2 8k - 8192 byte - black - printed | 8192 Byte | black (68855U)

NFC21

Product number: 68855U

NFC tag ABS - 40 x 32 mm - MIFARE DESFire EV2 8k - 8192 byte - black - printed | 8192 Byte | black

Product information

We print our plastic tags using modern digital UV direct printing process, which offers high resolution, color accuracy and durability. This custom printable NFC tag features the waterproof material and its distinct temperature resistance. For your desired design, simply download our matching print template and provide us with your desired print layout conveniently via our configurator.

Short description

- ABS material, plastic, rigid
- format: 40 x 32 mm, oval
- printing on one or both sides of the tag
- 4-color printable
- NFC chip: NXP MIFARE DESFire chip EV2 8k - 8192 byte
- **Note**: Key rings are enclosed separately

Product description

NFC product:

The NFC tag is made of a robust and waterproof ABS material and has a format of 40 x 32 mm with a material thickness of 4.3 mm. Due to the integration of the MIFARE DESFire EV2 8k chipset, it is popularly used in industry in areas with high security needs, such as access control or for locking systems.

Printing:

Our tags are printed using the modern digital UV direct printing process, which offers high resolution, color accuracy and durability. This makes it possible to display images in photo-realistic quality or print tiny font sizes in a legible manner. This environmentally friendly technology allows us to personalize your products on one or both sides, adding logos, images, text or other designs from a wide range of colors. The applied ink layer is abrasion resistant as well as resistant to water, sunlight and chemicals.

Note: Single-sided printing is included in the product price. A one-time setup fee will be charged additionally for setup of one-sided/two-sided printing.
You can add the printing of the tag via the configurator. You can find the appropriate print template for printing a free motif here.

NFC chip:

The ABS tag is equipped with the original MIFARE DESFire EV2 8k (MF3D 82). The chip offers full backward compatibility to the MIFARE DESFire EV1. The MIFARE DESFire series is intended for the realization of applications with high security requirements and offers corresponding security functions, which enable the protected storage of data on the chip. The MIFARE DESFire EV2 series (MF3Dx2) increases the level of security with new features (key set rolling), removes the limit for applications and offers higher write speed and improved range compared to its predecessor.

The MIFARE DESFire EV2 8k has a total capacity of 8192 bytes and has a 7-byte UID. The NFC chip can be written up to 500,000 times and has a data retention of 25 years. The chip is Common Criteria (EAL5+) certified and offers 3-DES or AES128 compliant encryption, among other features. The MIFARE DESFire EV2 8k is compatible with all NFC-enabled terminals. Due to the special functions, special hardware (locking system) or software (app) is usually required for use. Feel free to contact us to clarify compatibility with your application.

- Total capacity: 8192 bytes
- Free memory: -
- Usable memory NDEF: -

Product properties

Product number	68855U
Antenna format	22 mm
Dimensions	40 x 32 mm (W x H)
Memory	8192 Byte
Frequency	13.56 MHz
Available colours	black, blue
Material thickness	4,3 mm (T)
Chip standards / ISO Norm	ISO/IEC 7816-4, ISO/IEC 14443A
Data transfer rates	212 kbit/s, 106 kbit/s, 848 kbit/s, 424 kbit/s
Storage temperature	Min -55°C - Max +125°C
Operating temperature	Min -25°C - Max +70°C
Data retention	10 years
Detail colour	black
Weight	4 g
Colour category	black
Functions	7 Byte UID
Material	ABS
Compatibility	to NFC-enabled smartphones: 100%
Product form	oval
Chip	MIFARE DESFire EV2
Antenna	Copper
Type	Keyfob
