- Easy to attach anywhere
- Save your favourite music, scan the sticker and play the music
- Sticker also available in the form of a record

Product description

The digital sticker NFC Vibes in the shape of a cassette reminds you of a 35 x 22 mm audio cassette from the 80s. Decide for yourself where you want to place the sticker and what music you want to add. Your mood or the occasion has changed? No problem! You can edit the stored music at any time from anywhere. The only requirement is a valid subscription to one of the four music streaming services "Spotify", "Deezer", "Apple Music" or "Amazon Music".

The NFC Vibes Sticker contains an NXP NTAG213. This allows you to store your favorite music via the NFC-Vibes portal. The NFC chip is invisibly integrated in the product and therefore safe from external influences. Every NFC-enabled smartphone can read the NFC Vibes sticker.

More information about NFC-Vibes can be found on theNFC-Vibes website.

Product properties

Product number	68990
