Product number: 68801

NFC card protection cover - 90 x 60 mm - NFC Blocker - 5 pieces - with coloured edge | multicoloured

Product information

Due to the material property, the shielding aluminum layer, this product is particularly suitable for protecting NFC credit cards or other NFC cards.

Short description

- paper / aluminium, rigid
- suitable for metallic / conductive surfaces
- size 90 x 60 mm
- Indoor and outdoor use
- NFC Blocker

Product description

NFC product

This NFC card protection cover consists of GSM cardboard and a shielding aluminium layer. This means that cards in this protective cover cannot be read by NFC readers. The protective cover itself has a length of 90 mm and a width of 60 mm. It is therefore suitable for all common NFC cards (e.g. credit cards, EC cards) and also fits easily into standard wallet compartments. The protective sleeves are black on the outside and have five different coloured edges (orange, red, green, yellow and blue).

NFC chip

The NFC credit card protective cover does not have an NFC chip itself.
