coe-datasheet-sw6.pdf.productInformation

With the Dogtap digital dog tag, you offer your four-legged friend additional security so that he can be cared for in the best possible way and reunited with you as quickly as possible in an emergency. With just one scan using your own smartphone, the Dogtap provides comprehensive information about you and your dog in a clear dog profile. This way, you as the owner can be identified and contacted quickly and easily at any time in an emergency.

Short description

- Digital dog tag Dogtap Light XL
- Made of flexible silicone
- Noiseless and waterproof
- Comprehensive info about dog and owner, e.g. contact details, dog's profile, etc.
- Readable via NFC or QR code with any smartphone, without a special reader.

Product description

The Dogtap Light is the special alternative to the classic Dogtap Solid tag. The Dogtap Light is made of food silicone and is simply pulled over the dog collar or harness. Due to the material used and the special attachment to the collar, the Dogtap Light can convince not only by its special flexibility. It is an absolutely silent dog tag that accompanies the dog on his adventures without any clinking and clattering. The Dogtap Light is available in eight different colors and in three sizes. "XL" for the very large, "Big" for the larger and "Small" for the small ones among the four-legged friends. The Dogtap Light XL has a dimension of 112 x 70 mm, with a slot width of 5.6 x 50 mm.

The Dogtap contains an NTAG213 chipset from the leading chip manufacturer NXP. All necessary information about your dog can be easily stored on the chip via our [tap21 web portal](#). The information can be updated by you at any time. The NFC chip is invisibly integrated in the product and safe from external influences. Due to the materials used, the Dogtap Light is a very flexible dog tag in which neither water nor dirt can penetrate. The NFC chip can be read by any NFC-enabled smartphone, non-NFC-enabled smartphones can use the printed QR code.

More information and comprehensive instructions on the Dogtap, can be found on the [Dogtap website](#).

Product properties

Product number	17007
Detail colour	red
Memory	180 Byte (free: 144 Byte, NDEF: 137 Byte)
Available colours	green, black, red
NFC Smart	Yes
Water resistance	waterproof (IP68)
Frequency	13.56 MHz
Chip	NXP NTAG213
Data transfer rates	106 kbit/s
Storage temperature	Min -55°C - Max +125°C
