- Digital Sticker NFC Vibes in form of a record
- With english label "Your music"
- Easy to attach anywhere
- Save your favourite music, scan the sticker and play the stored music at any time
- Sticker also available in the form of a cassette

Product description

The digital sticker NFC Vibes in the shape of a record is reminiscent of a 38 mm vinyl record from the 80s. Decide for yourself where you want to place the sticker and what music you want to add. Your mood or the occasion has changed? No problem! You can edit the deposited music at any time from anywhere. The only requirement is a valid subscription to one of the four music streaming services "Spotify", "Deezer", "Apple Music" or "Amazon Music".

The NFC Vibes sticker contains an NXP NTAG213. When scanned, you are forwarded to the NFC-Vibes portal via which you can easily store your favorite music. The NFC chip is invisibly integrated in the product and therefore safe from external influences. Any NFC-enabled smartphone can read the NFC Vibes sticker.

You can find more information about NFC-Vibes on the NFC-Vibes website.

Product properties

Product number	68988
