# Bagtap Silicone - Digital address tag - 30 x 60 mm - blue | blue

## coe-datasheet-sw6.pdf.productInformation

Bagtap is a digital address tag that is equipped with intelligent additional functions that can help you if your luggage or bag gets lost. Through the online profile linked to the Bagtap, which identifies you as the owner and summarizes all important information, you can be contacted quickly. In addition to comprehensive contact details, you can also store information about your travel route and destination.

## Short description

- Digital address tag Bagtap Silicone
- Made of flexible silicone
- For every bag, suitcase and backpack
- Comprehensive information about the owner, itinerary and destination
- Readable via NFC or QR Code with any smartphone

## Product description

The Bagtap is made of stretchable silicone and can be attached easily to any luggage with the included ring. The materials used result in a robust and waterproof product, which measures 30 x 60 mm and is available in eight different colours.

The Bagtap contains a NTAG213 chipset from the leading chip manufacturer NXP. All necessary information can be easily stored on the chip via our [tap21 web portal](#). The information can be updated at any time if required. The NFC chip is invisibly integrated in the product and therefore safe from external influences. Every NFC-enabled smartphone can read the Bagtap, non-NFC-enabled smartphones can use the printed QR code.

More information and comprehensive instructions for the Bagtap, can be found on the [Bagtap website](#).

## Product properties

|                           |  |
|---------------------------|--|
| Product number            | 68825  |
| Memory                    | 180 Byte (free: 144 Byte, NDEF: 137 Byte)                |
| Available colours         | green, black, blue, red, orange, purple, pink, dark blue |
| NFC Smart                 | Yes  |
| Frequency                 | 13.56 MHz  |
| Chip                      | NXP NTAG213  |
| Data transfer rates       | 106 kbit/s   |
| Storage temperature       | Min -55°C - Max +125°C                                   |
| Material                  | Silicone   |
| Chip standards / ISO Norm | ISO 14 443-3 A, ISO 14 443-2 A                           |
| Detail colour             | blue   |
| Operating temperature     | Min -25°C - Max +70°C                                    |
| Data retention            | 10 years   |
| Product form              | rectangular  |
