### Product description

The Dogtap Solid is the elegant classic from the Dogtap range. As a chic tag made of PVC, covered with an additional epoxy layer and reinforced by a resistant metal frame, the Dogtap Solid is particularly convincing due to its durability and robustness. Thanks to its compact dimensions (41.6 x 28.5 x 4.6 mm) and the supplied metal ring, the Dogtap Solid can be attached to the collar as easily as conventional dog tags.

The Dogtap contains two NTAG213 chipsets from the leading chip manufacturer NXP. All the necessary information about your dog can be easily stored on the chips via our [tap21 web portal](#). The information can be updated by you at any time. The NFC chips are invisibly integrated in the product and are safe from external influences. Due to the materials used, the Dogtap Solid is a very stable dog tag that cannot be penetrated by water or dirt. The NFC chip can be read by any NFC-enabled smartphone, non-NFC-enabled smartphones can use the printed QR code.

More information and comprehensive instructions on the Dogtap, can be found on the [Dogtap website](#).
