Product number: 68942

RFID tag ABS - 40 x 32 mm - EM4200 - black | black

Product information

By integrating the original NXP EM4200 RFID chip, only the serial number of the fob can be read in order to operate compatible door intercom and locking systems (including DoorBird systems).

Short description

- ABS material, rigid
- Format 40 x 32 mm, oval
- Indoor and outdoor use
- Ambient temperature from -25 to +70 degrees
- EM4200 RFID chip (125 Mhz)

Product description

NFC product

The NFC tag is made of black ABS material and has a size of 40 x 32 mm with a material thickness of 4.3 mm. The NFC tag has a metal ring which makes it easy to attach. Due to the robust plastic material, the ABS tag is waterproof and is therefore ideal for both indoor and outdoor use.

NFC chip

The ABS tag is equipped with the original NXP EM4200 RFID chip. The RFID chip only supports the reading of the serial number. The chipset of the fob is not suitable for use with a smartphone but for compatible door intercom/locking systems. If in doubt, contact your system provider to confirm compatibility.

Product properties

Product number	68942
Antenna format	22 mm
Dimensions	40 x 32 mm (W x H)
Available colours	black , blue
Material thickness	3,6 mm (T)
Storage temperature	Min -55°C - Max +125°C
Frequency	125 kHz
Operating temperature	Min -25°C - Max +70°C
Number of write operations	100.000 times
Detail colour	black
Weight	4 g
Functions	not readable, only the serial number is read out
Colour category	black
Material	ABS
Compatibility	for compatible locking systems
Water resistance	waterproof
Product form	oval
Antenna	Copper
Type	Keyfob
Delivery options	single
Chip	EM4200
