

Product number: 68251

NFC card protection cover paper / aluminium - 90 cm x 60 mm - NFC Blocker - black | black

coe-datasheet-sw6.pdf.productInformation

Due to the material property, the shielding aluminum layer, this product is particularly suitable to protect NFC credit cards or other NFC cards.

Short description

- Paper / Aluminium, rigid
- suitable for metallic/conductive surfaces
- size 90 x 60 mm, rectangular
- Indoor and outdoor use
- NFC Blocker

Product description

NFC product

This NFC card protection cover consists of GSM cardboard and a shielding aluminium layer. This means that cards in this protective cover cannot be read by NFC readers. The protective cover itself has a length of 90 mm and a width of 60 mm. It is therefore suitable for all common NFC cards (e.g. credit cards, EC cards) and also fits easily into standard wallet compartments. The protective cover is matt black on the outside.

NFC chip

The NFC Credit Card Sleeve does not have an NFC chip itself.
